

Our Strategic Community Plan

The Strategic Community Plan (SCP) is a ten-year plan for the future for the City of Swan. It is the City's most important document, guiding everything we do. We use the SCP to plan and prioritise project and service delivery to our communities.

It's a legislative requirement that the City prepares and reviews the Strategic Community Plan with meaningful input from our communities.

Whilst the current ten-year plan is from 2021-2031, we are legislatively required to do a major review of it every four years. The next plan will cover ten years from 2025 to 2035.

The SCP contains our communities' vision, needs and aspirations for the future. As our communities continue to grow and change, we need to check in and make sure we understand your vision, needs and aspirations for the future. And that's why your input now is so important.

The City's current SCP is available [here](#).

The following information is provided as context to inform your input and feedback on our SCP.

What we do

The City delivers 35 services to our diverse communities, each with a specialised, unique role to play in delivering our strategic direction and community vision. Resources such as infrastructure, people and finances are allocated to deliver these services. Our services are listed in the diagram below, linked to the relevant Key Result Area. To learn more about the services we deliver, please refer to our detailed service plans available [here](#).
